Assistant Commissioner for Patents Washington, D.C. 20231

Attn: BOX REISSUE

SIR:

IN THE SPECIFICATION:

Please amend the specification as follows.

Replace the paragraph extending from col. 14, line 49 to col. 15, line 3 with the following:

--The binarizing section 14 according to the first embodiment, as shown in FIG. 4B, comprises a reference dot detection section 14A, a dot area measuring section 14B, a threshold value modifying section 14C and a threshold value determining section 14D. The [reference dot detection section 14A] threshold value determining section 14D, prior to generating binarized data to be supplied to the information reproducing section 16, binarizes an image signal supplied from the code reading section 10 with a predetermined threshold value, and then
